# SAFETY DATA SHEET

# 1. Product and company identification

**Product name** Bel-Ray High Performance Fork Oil 30W

Product code 99350 SDS number 7103

Bel-Ray Company, LLC

GPO Box 2650 Sydney, NSW 1171 PO Box 526 Farmingdale N.J. 07727

1 732-938-2421

CHEMTREC: 1800 069 100 (AUS)

Bel-Ray Company, LLC

P.O. Box 526

Farmingdale, NJ 07727 **United States of America** 

+1 732 938 2421

CHEMTREC: 800-424-9300 (USA)

CHEMTREC: +1 703-527-3887 (outside USA - call collect)

# Recommended use and Limitations on use

Recommended use Lubricant

#### 2. Hazards identification

**GHS** classification

Physical hazards Not classified. Health hazards Not classified.

**Environmental hazards** Hazardous to the aquatic environment, acute Category 2

Hazardous to the aquatic environment, Category 2

long-term hazard

Label elements

**Symbols** None. None. Signal word

**Hazard statement** Toxic to aquatic life.

**Precautionary statement** 

Prevention Keep out of reach of children. Read label before use. Avoid release to the environment.

If medical advice is needed, have product container or label at hand. Response

Storage Store away from incompatible materials.

Disposal Dispose of contents/container in accordance with local/regional/national/international regulations.

Supplemental information None.

## 3. Composition/information on ingredients

Substance or mixture Mixture

**CAS Number Chemical property** Concentration (%) 64741-88-4 0 - < 100Distillates (petroleum), solvent-refined heavy paraffinic Distillates (petroleum), Solvent-refined Heavy Paraffinic Other components below reportable levels 60 - < 70

# 4. First aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact Wash off with soap and water. Get medical attention if irritation develops and persists.

Eye contact Rinse with water. Get medical attention if irritation develops and persists.

Material name: Bel-Ray High Performance Fork Oil 30W SDS NEW ZEALAND Ingestion Rinse mouth. Do not induce vomiting. Get medical attention if symptoms occur. Never give liquid to

an unconscious person.

Potential delayed effects

Irritation of eyes and mucous membranes. Skin irritation.

Personal protection for first-aid responders

Not available.

Notes to physician Provide general supportive measures and treat symptomatically.

5. Fire-fighting measures

Extinguishing media Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2). Do not use water jet as an extinguisher, as this will spread the fire.

Extinguishing media to avoid

Specific hazards during fire

**HAZCHEM Code Number** 

fighting

During fire, gases hazardous to health may be formed.

Special fire fighting

procedures

Not available.

Protection of fire-fighters Wear suitable protective equipment. Self-contained breathing apparatus and full protective clothing

must be worn in case of fire.

Hazards from combustion

products

May include oxides of Nitrogen. Carbon monoxide and carbon dioxide.

Specific methods Use standard firefighting procedures and consider the hazards of other involved materials.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8.

**Environmental precautions** 

Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground. Inform appropriate managerial or supervisory personnel of all environmental releases.

Spill cleanup methods

This product is miscible in water.

Large Spills: Stop the flow of material, if this is without risk. Use water spray to reduce vapours or divert vapour cloud drift. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers. Prevent product from entering drains. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.

7. Handling and storage

Handling

**Precautions** Avoid release to the environment.

Safe handling advice Observe good industrial hygiene practices. Use personal protection recommended in Section 8 of

the SDS.

Prevention of fire and

Incompatible materials

explosion

No specific recommendations.

Local and general ventilation

Provide adequate ventilation.

Storage

Suitable storage

Keep out of the reach of children. Store away from incompatible materials (see Section 10 of the

conditions SDS).

For further information, please refer to section 10.

Store in original tightly closed container. Safe packaging materials

paraffinic (CAS 64741-88-4)

**Biological limit values** No biological exposure limits noted for the ingredient(s).

**Engineering controls**Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other

engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

Personal protective equipment

**Respiratory protection** In case of insufficient ventilation, wear suitable respiratory equipment.

**Hand protection** Wear appropriate chemical resistant gloves.

**Skin protection** Wear suitable protective clothing.

**Eye/face protection** Wear safety glasses with side shields (or goggles).

Radioactive or thermal

hazards

Follow standard monitoring procedures.

**Hygiene measures** Always observe good personal hygiene measures, such as washing after handling the material and

before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to

remove contaminants.

## 10. Stability and reactivity

Reactivity The product is stable and non-reactive under normal conditions of use, storage and transport.

Material is stable under normal conditions. Stability Conditions to avoid Contact with incompatible materials.

Incompatible materials Strong oxidising agents.

Hazardous decomposition

products

Nitrogen oxides (NOx). At thermal decomposition temperatures, carbon monoxide and carbon

dioxide.

Possibility of hazardous

reactions

No dangerous reaction known under conditions of normal use.

# 11. Toxicological information

#### Information on likely routes of exposure

Ingestion Expected to be a low ingestion hazard.

Inhalation No adverse effects due to inhalation are expected. Skin contact No adverse effects due to skin contact are expected. Eve contact Direct contact with eyes may cause temporary irritation.

**Product Test results Species** 

Bel-Ray High Performance Fork Oil 30W

**Acute** Dermal

LD50 Rabbit 2031 mg/kg estimated

Oral

irritation

LD50 Rat 2049 mg/kg estimated

Routes of exposure Inhalation

**Symptoms** Irritation of eyes and mucous membranes. Skin irritation. Based on available data, the classification criteria are not met. Skin corrosion/irritation Based on available data, the classification criteria are not met. Serious eye damage/eye

Respiratory sensitiser Based on available data, the classification criteria are not met. Skin sensitiser Based on available data, the classification criteria are not met. Germ cell mutagenicity Based on available data, the classification criteria are not met. Carcinogenicity Based on available data, the classification criteria are not met. Toxic to reproduction Based on available data, the classification criteria are not met.

Based on available data, the classification criteria are not met. Specific target organ toxicity - single exposure

SDS NEW ZEALAND 4/6 99350 Version No.: 3.0 Revision date: 13-May-2016 Print date: 13-May-2016

<sup>\*</sup> Estimates for product may be based on additional component data not shown.

Specific target organ toxicity - repeated

exposure

Based on available data, the classification criteria are not met.

**Aspiration hazard** Not an aspiration hazard.

Chronic effects Not available.

Relevant negative data Not available.

## 12. Ecological information

#### **Ecotoxicological data**

| Product                               |      | Species | Test results                       |  |

| Bel-Ray High Performance Fork Oil 30W |      |         |                                    |  |
| Aquatic                               |      |         |                                    |  |
| Crustacea                             | EC50 | Daphnia | 9898.9902 mg/l, 48 hours estimated |  |
| Fish                                  | LC50 | Fish    | 113.2545 mg/l, 96 hours estimated  |  |

<sup>\*</sup> Estimates for product may be based on additional component data not shown.

**Ecotoxicity** Toxic to aquatic life.

Persistence and degradability No data is available on the degradability of this product.

**Bioaccumulation** No data available. **Bioconcentration factor (BCF)** Not available.

**Mobility** This product is miscible in water.

Other hazardous effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation

potential, endocrine disruption, global warming potential) are expected from this component.

## 13. Disposal considerations

Disposal

methods/information

Collect and reclaim or dispose in sealed containers at licensed waste disposal site. This material and its container must be disposed of as hazardous waste. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international

regulations.

**Special precautions** Dispose in accordance with all applicable regulations.

## 14. Transport information

## IATA

Not regulated as dangerous goods.

#### **IMDG**

Not regulated as dangerous goods.

Transport in bulk according to Not established.

Annex II of MARPOL 73/78

and the IBC Code

## 15. Regulatory information

# Applicable regulations

#### New Zealand Inventory of Chemicals (NZIoC): Registration status

Distillates (petroleum), solvent-refined heavy paraffinic (CAS 64741-88-4)

May be used as a single component chemical under an appropriate group standard
