INTERPHONEF5 REMOTE CONTROL

REMOTECONTROLF

Description

To provide maximum riding safety, the INTERPHONE REMOTECONTROLF has an innovative Bluetooth® remote control that mounts easily on any handlebar control handle with a diameter of 20 to 32 mm.

Thanks to its convenient joystick, you can easily access all INTERPHONEF5 functions in complete safety, without taking your hands off the handlebar. Using only a single control, the many functions offered by the INTERPHONEF5 can be enjoyed very easily and without taking your eyes off the road, thanks also to the voice wizard (TTS) on the INTERPHONEF5.

The REMOTECONTROLF is covered with an innovative soft-touch film, and the joystick is especially easy to use.

Tamper-proof mounting screws make the REMOTECONTROLF easy to install and difficult to remove. This small powerhouse of technology, safety and functionality can easily be operated with any type of glove.

The REMOTECONTROLF is compatible with the INTERPHONEF5, only.
